

Room Care R5-plus

Air freshener – concentrate

Introduction to Room Care

Room Care is the unique globally available all encompassing solution for your guest room maintenance including chemicals, tools and methods to cover any room cleaning needs, adapted to any hotel size and housekeeping structure.

Superior formulations adapted to deal effectively and safely with all the cleaning and disinfections requirements of housekeeping, easy to recognise product names as well as colour coding throughout the system, a set of dedicated tools, accessories and machines make Room Care the perfect choice.

All Room Care products come with the same 'Fresh Linen' signature fragrance designed for the lodging industry. It utilises O.N.T technology for effective malodour neutralisation and long lasting fragrance.

Room Care range is the solution of choice when combining performance, user safety and environmental responsibility. All our Room Care formulations are compliant with the strictest regulations, in particular with the upcoming REACH European directive.

Diversey's expertise, environmental commitment, and certification against ISO 9001, ISO 14001 and the AISE Charter for Sustainable Cleaning provide further guarantee of quality and efficacy.

Product description

Room Care R5-plus is a concentrated non-aerosol air and fabric freshener with a fresh linen fragrance. It utilises Odour Neutralising Technology (O.N.T) for effective malodour removal and long lasting fragrance. To be used only with Divermite/DQFM dosing and dilution system.

Key properties

- Freshens and deodorises
- Light, delicate and fresh fragrance
- Unique, patented O.N.T. air neutralising technology alters malodour molecules
- Safe on colourfast, washable fabrics/furnishings
- Uses unique and environmental friendly pouch technology

Benefits

- Neutralises malodour molecules, enhancing the effect of the perfume
- Leaves a long-lasting pleasant scent behind
- Supports total room freshness when used alongside Room Care cleaning products
- Colour and alphanumeric coded to prevent application mistakes

Room Care R5-plus

Use instructions

Dosage:

When using with Divermite Room Care Dosing Unit, fill keyed Room Care R5-plus 300ml application bottle with water to the fill line. Push the Divermite dispenser twice to dispense 30mls of product. Securely screw on the spray trigger. Ensure the nozzle is closed and gently shake the bottle to mix the product.

When using with a DQFM dilution dispenser unit, fill the Room Care R5-plus keyed spray bottle (300ml or 750ml) to the fill level mark directly from the DQFM dispenser. Securely screw-on the spray trigger.

Application

Spray upwards into the centre of the room and spray onto curtains and fabric furnishings if required.

NB: Between refills, rinse out bottle with clean water.

For more detailed application, please refer to Room Care R5-plus Mini Guide.

Product compatibility

Do not spray over or onto plastic surfaces. Do not mix with other cleaning products. Do not use with other dilution systems or methods. Do not use undiluted.
